Important advice!

Assembly instructions

All parts must be original **alfer** parts. Damaged parts should not be used. Basic technical knowledge is required for assembly. In case of technical difficulties, advice can in some circumstances be sought from staff at the hardware store or possibly from **alfer** itself. If difficulties arise during assembly, an enquiry should always be put to **alfer** before changing components. Do not deviate from the assembly instructions. Changes to materials or deviations from the assembly instructions can cause safety defects, which in case of damage may well be attributed to such a deviation. In case of damage arising from such deviations, **alfer** accepts no liability.

Instructions for use

The permitted loading capacity must not be exceeded. Inappropriate use will result in the right to compensation being excluded.
